

## Coating and Curing Systems

Product-specific curing and drying of conformal coating and potting material.

- Proven and reliable process
- System for hot (200°C) and cold temperatures (-50°)
- Modular system from 1,5m up to 10m in process length (in 0,5m steps)

Very flexible transport possibilities

- 1- to **6-lane** conveyor configurations
- Up to two transport levels
- **Heavy-duty transport**
- Uni-directional conveyor
- Bi-directional conveyor
- Accelerator belt
