

UV-Conformal Coating System

Curing of UV-lacquers.

- UV light source: Long lifetime, non degrading output for >6000 hours
→ Process reliability
→ Significantly lower costs
- **Start-up time < 1 Minute**
- Small footprint; several UV light sources (above and below) in one system
- **No maintenance**
- Intuitive software, traceability and handling options available
- Mechanically based on reliable and proven reflow experience
